

**Multiple Choice:**

1. DC current flows through a telephone:
 - A. when it is on hook
 - B. as long as it is attached to a local loop
 - C. when it is off hook
 - D. only when it is ringing
2. When a fraction of assigned channel is reserved for handoffs, it is
 - A. Guard channel concept
 - B. Fixed channel assignment
 - C. Dynamic channel assignment
 - D. None of the above
3. The cable used for local loops is mainly:
 - A. twisted-pair copper wire
 - B. coaxial cable
 - C. shielded twisted-pair copper wire
 - D. fiber-optic
4. What frequency is the Out-of-Band signaling between Toll Central Offices (Bell System Standard)?
 - A. 3,825 Hz
 - B. 2,600 Hz
 - C. 3700 Hz
 - D. 800 Hz
5. Dwell time depends upon
 - A. Interference
 - B. Distance between the subscriber and the base station
 - C. Propagation of call
 - D. All of the above *
6. What is the number of channels of a cellular system with an allocated spectrum of 25 MHz and with a channel of 30 kHz bandwidth?
 - A. 833
 - B. 1000
 - C. 240
 - D. 666
7. While handoffs, the termination of call may be avoided by
 - A. Providing Guard channel
 - B. Queuing of handoffs
 - C. Both A and B
 - D. None of the above
8. What component in the telephone set has the primary function of compensating for the local loop length?
 - A. Resistor
 - B. Induction coil
 - C. Varistor
 - D. Capacitor
9. The techniques used to improve the capacity of cellular systems are
 - A. Splitting
 - B. Sectoring
 - C. Coverage zone approach
 - D. All of the above
10. Standard tariff for flat rate telephone service beyond the normal flat rate in that area.
 - A. WATS *
 - B. TIP
 - C. OTLP
 - D. DTWX
11. The interference between the neighboring base stations is avoided by
 - A. Assigning different group of channels
 - B. Using transmitters with different power level
 - C. Using different antennas
 - D. All of the above
12. Not more than _____ digits make up an international telephone number as recommended by CCITT REC. E. 161.
 - A. 8
 - B. 11
 - C. 10
 - D. 12
13. What special service circuit is connecting two private branch exchanges (PBX)?
 - A. Phantom line
 - B. Tandem trunk
 - C. Tie trunk *
 - D. Private line
14. The range of DC current that flows through a telephone is:
 - A. 20 μ A to 80 μ A
 - B. 2 mA to 8 mA
 - C. 200 μ A to 800 μ A
 - D. 20 mA to 80 mA
15. What circuit is the minimum-quality circuit available using the PTN?
 - A. Basic voice grade (VG) *
 - B. Basic voice channel (VC)
 - C. Basic voice band (VB)
 - D. Basic telephone channel
16. The strategies acquired for channel assignment are
 - A. Fixed
 - B. Dynamic
 - C. Regular
 - D. Both A and B
17. PCN is
 - A. Wireless concept of making calls
 - B. For receiving calls
 - C. Irrespective of the location of the user
 - D. All of the above
18. POTS stands for:
 - A. Private Office Telephone System
 - B. Primary Operational Test System
 - C. Primary Office Telephone Service
 - D. Plain Old Telephone Service
19. Dwell time is the time for
 - A. A call within the cell
 - B. Hand off
 - C. Waiting for channel allocation
 - D. None of the above
20. The minimum spectrum allocation required for W-CDMA is
 - A. 5MHz
 - B. 500kHz
 - C. 2MHz
 - D. 100kHz
21. In handoff
 - A. Process of transferring the call to the new base station
 - B. Transfers the call
 - C. New channel allocation is done
 - D. All of the above *
22. Grade of service refers to
 - A. Accommodating large number of users in limited spectrum
 - B. Ability of a user to access trunked system during busy hour
 - C. Two calls in progress in nearby mobile stations
 - D. High speed users with large coverage area
23. Every time when the telephone is idle, the handset is in the _____ state.
 - A. on-hook
 - B. busy
 - C. off-hook
 - D. spare
24. What is the ideal passband of a voice-grade circuit using the PTN?
 - A. 0 to 4 Hz
 - B. 0 to 4 kHz
 - C. 0 to 4 MHz
 - D. 0 to 4 GHz
25. Mobile Assisted Handoff (MAHO) provides
 - A. Faster handoffs
 - B. Suitability for frequent handoffs
 - C. MSC need not monitor the signal strength

EXCEL FIRST REVIEW AND TRAINING CENTER. INC.

Cebu: JRT Bldg. Imus Ave, Cebu City | **Davao:** 2nd Fl. MERCO Bldg. Rizal St. cor. Bolton St.
Manila: CMFFI Bldg. R. Papa St. Sampaloc | **Baguio:** 4th Fl. De Guzman Bldg., Legarda Road
