

## Multiple Choice:

1. A pulse modulation technique...

Ans. **D. All of these**

2. It is the transmittal of digitally...

Ans. **A. Digital Modulation**

3. Indicate which of the...

Ans. **B. Pulse Code Modulation**

4. The baud rate...

Ans. **B. is equal to twice the bandwidth of an ideal channel**

5. Bit errors in data transmission...

Ans. **noise**

6. It is a process of converting...

Ans. **Quantization**

7. A digital modulation technique...

Ans. **D. FSK**

8. Start and stop bits...

Ans. **B. Space, mark**

9. A form of angle – modulated...of output phase possible.

Ans. **B. PSK**

10. Refers to the rate of change...

Ans. **A. baud rate**

11. The magnitude difference...

Ans. **D. any of these**

12. The Hartley – Shannon...

Ans. **B. maximum capacity of a channel with a given noise level**

13. It is the ratio of the transmission...

Ans. **B. All of these**

14. Transmitting the data signal ...

Ans. **A. Baseband**

15. The main reason that...

Ans. **D. parallel is too expensive**

16. Any rounded – off errors...

Ans. **B. Quantization error**

17. The biggest disadvantage...

Ans. **D. the large bandwidths that are required for it**

18. It is the process of ...

Ans. **D. Companding**

19. The primary advantage....

Ans. **C. noise immunity**

20. Part of the PCM...

Ans. **D. any of these**

21. It is defined as the process...

Ans. **C. coding**

22. In digital transmission...

Ans. **C. increasing**

23. In digital transmission...

Ans. **C. Throughput**

24. \_\_\_\_\_ measures the time ...

Ans. **A. propagation time**

25. The \_\_\_\_\_ is the time...

Ans. **C. Queuing time**

26. In digital transmission...

Ans. **B. Bandwidth-delay product**

27. The \_\_\_\_\_ defines the number...

Ans. **B. Bit rate**

28. The \_\_\_\_\_ is the number...

Ans. **A. Baud rate**

29. According to the Nyquist...

Ans. **B. 2**

30. In data transmission,...

Ans. **D. Companding**

31. The last step in ...

Ans. **C. Encoding**

32. Binary data may ...

Ans. **B. Parallel**

33. In \_\_\_\_\_ transmission...

Ans. **A. Serial**

34. In \_\_\_\_\_ transmission...

Ans. **C. Asynchronous**

35. \_\_\_\_\_ is the dominant...

Ans. **B. QAM**

36. The total bandwidth required...

Ans. **A.  $B_{AM} = 2B$**

37. \_\_\_\_\_ is the process of ...

Ans. **C. Digital to Analog Conversion**

38. It is a numerical indication...

Ans. **A. Coding efficiency**

39. Type of PCM which is...

Ans. **C. Differential PCM**

40. The phase relationship between ...

Ans. **A. Antipodal signalling**

41. Pulse – amplitude modulation...

Ans. **D. FET Switches**

42. It is a system where...

Ans. **B. Baseband**

43. Pulse width modulation...

Ans. **B. with a monostable multivibrator**

44. Information capacity ...

Ans. **D. bits per second or bps**

45. Which medium is ...

Ans. **B. fiber optic cable**

46. Sixteen different levels ...

Ans. **C. 288 Mbps**

47. Quantizing noise occurs in...

Ans. **C. Pulse Code Modulation**

48. In order to reduce quantizing...

Ans. **A. increases the number of standard amplitudes**

49. A form of digital modulation...

Ans. **C. QAM**

50. For the 16-PSK ...

Ans. **A. 40,000 bps**
