Common Business Models

Retail

They sell physical products directly to consumers through physical stores, e-commerce platforms, or a combination of both.

Excel Review Center

Subscription

Customers pay a recurring fee at regular intervals (monthly, annually) to access a product or service.

Marketplace

Marketplaces connect buyers and sellers, facilitating transactions between them.

Freemium

Freemium models offer a basic version of a product or service for free, enticing customers to upgrade to a premium version with additional features or functionality for a fee.

Excel Review Center

Advertising

Advertising-based models offer free access to content or services while generating revenue by displaying advertisements to users.

Franchise

Franchising involves selling the rights to operate a business under an established brand and proven business model.

Direct Sales

Direct sales models involve selling products or services directly to customers without using intermediaries or retail stores.

Platform

Platform models create value by facilitating interactions between different user groups. They act as intermediaries, connecting buyers and sellers, service providers and consumers, or content creators and users.

Excel Review Center

Licensing

Licensing models involve granting rights to use intellectual property, such as patents, trademarks, or copyrighted content, in exchange for royalties or licensing fees.

Service Based

Service-based businesses offer intangible services to clients, such as consulting, professional services, or maintenance and repair.

Business Model Canvas (BMC)

Developed by **Alexander Osterwalder** and **Yves Pigneur** as a way to help entrepreneurs understand, innovate, and describe their business models.

Customer Segments: Identifies the different groups of customers or market segments that the business serves.

Excel Review Center

Value Proposition: Describes the unique value and benefits that the business offers to its customer segments.

Channels: Specifies the methods through which the business delivers its value proposition to customers.

Customer Relationships: Defines the types of relationships the business establishes with its customers

Revenue Streams: Outlines the sources of revenue and how the business generates income

Key Resources: Identifies the strategic assets, resources, or capabilities that are essential for the business to operate

Key Activities: Describes the core activities and processes that the business engages in to deliver its value

Key Partnerships: Specifies the external entities or partners that the business collaborates with

Cost Structure: Represents the costs and expenses incurred by the business in its operations
